A Letter From the Executive Director

Dear Friends:

Summer 2018 will mark sixteen years since the Barbara C. Harris Center opened its gates and hosted its very first summer camp. The dream of a place and a program to change lives was in full swing, hope loomed large. Campers that attended that first camp (now in their mid to late twenties/early thirties) could not have known what was to come, but most assuredly, the trajectory of their lives were forever impacted by that summer.

A study by camp researcher, Jacob Sorenson (jakesorenson.com), indicates that a child participating in a summer camp program is three times more likely to be involved in the life of the church, five years later, than a child who did not attend. Let that statement sink in. In an era where churches are wringing their hands about falling church attendance, there is a future and a hope: summer camp.

And what about the non-camp months of the year? The Barbara C. Harris Center is a place where churches, ministries, and other related entities come together to do the work that changes our world. Last year nearly 200 different nonprofit and faith groups took advantage of the Center's hospitality and did their part to improve the lives of their fellow man.

As we close out 2017, please partner with the camp and conference center in supporting the programs and people who make a difference; make a generous gift to the 2017 Barbara C. Harris Center Annual Fund: "A Future and a Hope". Your monetary

Bleached Pinecone Christmas Decorations

"Walking around the BCH Center, I picked up 5 pine cones. They are a different shape than the ones I have in my yard; mine are the longer ones. The following week I remembered that I had seen an article about bleaching pine cones, I checked the web and of course I found what I needed to give it a try (click here for instructions). It worked well and now I wish I picked up another 5. They are much lighter in color, don't think white. Now, I'm going to hot glue a bow on top and use them as Christmas decorations. If they turn out like the image in my imagination I'll be looking for a few more next year!"
